# 1 Introduction

I, Henri Charles Edouard Vandersleyen, request to reinstate my P.eng license. While I do not require a P.eng license to practice software engineering in its many facets; I do believe that with the rise of Artificial Intelligence, and the ever increase velocity of programming that, now more than ever, the human value.

I previously served the Royal Canadian navy as a Naval Engineering Officer where, while onboard a warship advised the commanding officer on the machinery, technical readiness of the systems and the men under my care and responsibility
